

## MUNDAY IS GUILTY OF CONSPIRACY SAYS GRUNDY CO. JURY

MAXIMUM LEGAL PUNISHMENT,  
FIVE YEARS IN PENITEN-  
TIARY, IMPOSED

### TRIAL LASTED EIGHT WEEKS

Case Was Taken To Morris From  
Cook County On Change  
Of Venue

Morris, Ill., Nov. 20.—Late Friday night Charles B. Munday was found guilty of having conspired with former Senator Wm. E. Lorimer and others to wreck the La Salle Trust & Savings bank and its four Chicago subsidiaries. The jury fixed his punishment at five years in the penitentiary, the greatest sentence in its power to impose.

The charges which led to the indictment of Charles B. Munday, who is said to have been the financial genius of the LaSalle Street Trust and Savings bank of Chicago, form one of the most sensational chapters in the banking history of Illinois. The bank was organized by Mr. Munday and former United States Senator Wm. Lorimer. When the bank failed in June, 1914, there followed the collapse of nine other banks and trust companies of the so-called Lorimer-Munday string.

Fourteen persons were indicted last winter, the chief of them being Mr. Munday, the second vice president, and Mr. Lorimer. The state chose to prosecute Mr. Munday first and, on his declaring that his association with the political fortunes of Mr. Lorimer precluded a fair trial in Chicago, a change in venue to this city was granted.

A grand jury at Chicago which considered the case for more than three months, brought in a report last October in substance as follows:

The fourteen persons named in indictments were found to have looted the Lorimer-Munday institutions of almost \$2,500,000, with violation of practically every banking law in the state.

It was charged that assets of the LaSalle Street Trust and Savings bank had been stolen in order to organize other banks in the Lorimer-Munday chain; that checks had been "kited" in carrying out the program and that the parent bank had been insolvent for some time previous to the collapse.

Valuable securities held by financial institutions in which Lorimer, Munday and associates became interested were alleged to have been replaced by securities known to be of worthless or doubtful character.

The twelve others indicted were officers of the Lorimer-Munday banks: namely, H. W. Huttig, Charles G. Fox, Thomas McDonald, John K. Seagrave, Edwin J. Potts, Abraham Levin, Paul Hazard, John H. Rife, John B. DeVoney, Frank H. Novak, Charles W. Novak and Wm. Lorimer Jr. The trial of Munday is expected to adduce testimony bearing on all the cases to be tried later.

Among the grand jury allegations against Munday is one that he gave worthless checks to L. Y. Sanders, formerly governor of Louisiana, one for \$50,000 on the State bank of Smithboro, Ill., and another for \$58,000 on the Bank of East Alton, Ill., which are said to have been cashed at the LaSalle Street Trust and Savings bank. The grand jury's report alleges that Sanders with the proceeds purchased stock in a new Lorimer-Munday bank, being organized as the A. H. Hill & Company State bank, but A. H. Hill is said to have grown suspicious of the solidity of the parent bank and to have withdrawn his entire account.

## SENIOR CLASS SHOW WAS DECIDED HIT

THE MASQUERADE MINSTRELS  
PLEASED BIG AUDIENCE  
FRIDAY EVENING.

The senior class of Dixon high school scored a decided success in their Masquerade Minstrels given at the opera house Friday evening, and a capacity audience showed their appreciation of the work of the young people by heartily applauding all the performers, and in every case the applause was merited.

Miss Goldie Rice was unable to take part, but Miss Rosanna Dement assumed the part most happily; otherwise the program was carried out as published. The end men, Brooks Jones, Schuler, Cahill, Devine and Baldwin, kept their audience in laughter, while the soloists and chorus demonstrated pleasing ability. The entire performance was one of real merit and a credit to the members of the class, the director, Mrs. Smith, and all who assisted in any way.

## CHICAGO HAS REAL WAR ON ITS HANDS WHEN ITS POLICE INVADE "STREETFRVILLE."

"Streeterville," which although lying within a stone's throw of the fashionable Lake Shore drive, in Chicago, and between it and Lake Michigan, has long maintained its independence of all laws save those of the United States, came back to life to compete with the war news with a real battle of its own. The fact that Chicago-obeying the law of Illinois—has been declared "dry territory" on Sundays was the cause. The "District of Lake Michigan," as its ruler, Captain George Wellington Streeter, calls it, was invaded by armed forces, and he was wounded. Bullet holes, blood and wrecked furniture were left in the wake of the brisk battle. Two were wounded, sixteen prisoners were taken, munitions were captured, liquid provender to the amount of 15,000 bottles of beer was confiscated and the territorial archives, containing the sacred "dokuments" of state became war booty. Captain Streeter was on a small schooner wrecked on the sands twenty-nine years ago. He squatted on the land the lake created after his vessel made a barrier. He claims the land is outside the boundary of the city and state and has some court decisions in his favor. The land is now worth millions.

## CASE AGAINST FIRM IN FRANKLIN GROVE HAS BEEN SETTLED

COMPLAINTS AGAINST D. B. SENG-  
ER & CO. TAKEN UP IN  
CHICAGO

WERE UNAWARE OF NEW LAW

Labels, Unknown To Firm, Did Not  
Comply With Federal  
Provisions

Franklin Grove, Nov. 20.—(Special)—The complaints against the former firm of D. B. Senger & Co. of this place, regarding violation of the food and drug act, were settled in the Chicago court of Judge Landis, Friday.

The case as brought to the public in various newspaper articles had the appearance of a complicated nature, while the actual facts are very trifling. Certain labels were taken up by an official inspector who entered complaint that they did not comply with an amendment of the law that had been passed but a few months previous. The offenders were unaware of the fact that the law had not been complied with, but made immediate corrections when notified. The general routine of cases of this nature is through the federal court and for unknown reasons this case took the full routine. The members of the former firm which has not been in business for two years were not notified of the charge, warrants were not served, and bonds were not demanded as was implied in various newspaper articles. The case was settled satisfactorily and without contention through the initiative of the defendants.

The above case was given mention in this as well as in various newspapers in a manner that could have been taken as derogative to the good intentions of the defendants, Ray W. Senger of Elgin, and Frank H. Senger of Franklin Grove, members of the former firm of D. B. Senger & Co., are young men of the highest standing in their respective communities. The latter is well known in Dixon. This paper regrets the publication of any article that may have been of a misleading nature.

## Fires, Not Wedding Bells, Man's Choice For Big Celebration

Danville Man Shows Joy Over  
His Marriage By Start-

Danville, Ill., Nov. 20.—That a series of fires occurring within a few minutes of each other in the business heart of Danville last November 24 were the methods employed by her husband, Chester Rodehamel, to celebrate their marriage which took place in Urbana a few hours before, was alleged by Mrs. Lottie Rodehamel in a suit for divorce.

The fires caused a loss of about \$64,000 and stopped when Rodehamel was caught lurking in the rear of a hardware store in a block adjacent to the blazes by the chief of police. Ten days later he confessed.

Mrs. Rodehamel stated that her husband was a pyromaniac. Rodehamel is now in the state prison at Chester serving an indeterminate sentence.

## DETECTIVE WHO WAS SHOT BY ROBBER AT ROCHELLE MAY DIE

BURLINGTON R. R. SPECIAL  
AGENT AND CROOK WOUNDED  
IN FIGHT.

### LEADER OF GANG STILL AT LARGE

R. F. Chester, Head of Thieving Organization, Being Sought Today.

Rochelle, Nov. 20.—Wm. L. Fairweather of Cicero, a special agent of the Burlington, is hovering between life and death and "Red" Monroe, a train robber, was seriously wounded in a battle between the police and the Chester gang at 726 8th street at about 4 p. m. yesterday.

The victims were Wm. L. Fairweather, railroad detective, aged about 56, shot through the breast, the bullet coming out at the abdomen and again at the base of the neck, the bullet taking a downward course through the esophagus. He hasn't quite an even chance to live.

"Red" Monroe, brother-in-law of the leader of the gang and a Chicago crook with a record, shot through the neck just below the ear, the bullet coming out through his mouth; also through the hip. He has a chance to live.

### Leader At Large.

Robert Ford Chester, leader of the gang, is at large and the deputy sheriff of Ogle county, T. E. Pratt, the chief detective of the Burlington, Ambrose Hodges, chief of police, and a score of deputies and police are scouring the country with a couple of blood hounds in an effort to effect his capture. Chester is armed, is about six feet tall, light complexion, with a smooth face, weighs about 150 pounds, has sandy hair, is about 28 years old and when last seen wore a blue serge or black suit and brown hat of woolly material. He was well dressed and is sharp spoken, with shifty eyes, and had plenty of money. The remaining member of the gang, Mrs. Chester, was taken into custody upon her return from Chicago last night.

The Chesters have been stealing butter and eggs from freight cars between here and Channah. They moved their booty to Rochelle in a Ford auto truck and later to DeKalb and Sycamore where they shipped it to Aurora. They were finally traced to Rochelle by Q agents working with local police and finally to the two story brick cottage of Delos D. Baxter, located in the heart of the northside residence district. Detective Fairweather enlisted the aid of Chief Hodges to serve the warrant, the men choosing the back door route. They were admitted to the house but as the chief began reading the warrant Chester appeared with two guns and started firing. Fairweather was shot in the breast and Hodges was roused to action by the shaving of part of his mustache by a bullet. He struck Monroe square in the face knocking the gun he was drawing to the table out of his reach. Seven or eight shots were exchanged, Night Patrolman Adair getting Monroe.

As the fight grew warm the police withdrew to the east side of Edward Crawford's house where Fairweather received a second bullet through his neck, Chester firing from a second story window. In the confusion following Chester leaped from the second story window to the front porch and from there to the ground. He escaped around the south side of the house through Downer's yard east to the ball park, Orlando Reed's barn and the Northwestern tracks.

Fairweather and Monroe were removed to the Lincoln hospital by Drs. Bushnell and Stevens. Dr. Kittler, the Q physician is in charge of Fairweather. His wife and daughter arrived at midnight to be at his bedside.

States Attorney Emerson of Oregon is working on the case. He notified surrounding cities last night and was closeted with Mrs. Chester at the police station in an effort to gain incriminating evidence. Two bloodhounds were sent to Rochelle from Aurora last night and are being used in the manhunt.

Attorneys Dusher & McHenry have been retained by the Burlington and Mrs. Chester requested that Attorneys Wirick & Wirick appear for her. A reward has been offered for the capture of Chester.

# Vest Pocket Essays

By GEORGE FITCH  
Author of "A Good Old Siwash"  
BRAGGING.

Bragging is the art of putting your best foot into the other fellow's ear at every opportunity. The world is full of braggers. They are our most ambitious class. A bragger will never loaf on his job. While other men are resting at night he will leave his home and tramp two miles to find some man who will stand quietly while the bragger tells him, with one finger hooped into his coat button, how a great many people had said to him that it was an awful thing to elect Wilson president, while really big men like yours truly, with the prehensible finger, are allowed to languish unperturbed by fame.

The bragger can be readily distinguished by his long, crooked forefinger. It is his weapon. He hunts the unwary citizen and hooks onto him as Paul Jones hooked onto the British ships. When this is done, he begins to brag, and the only ways of escape are to cut off the finger or to give up the coat.

Braggers brag about everything in the world, just as kickers are never at a loss for a subject. If a bragger is rich he brags about it. If he isn't he brags about how soon he is going to be, or how he once was, or because he

doesn't join in the silly race for the dollar. Some braggers insist on hanging their own laurel wreaths on themselves, while others are more refined about it and merely repeat to you what some friend has said about them. Some men are so expert that they can brag half a day about their modesty, and get away with it in safety.

Braggers have done wonderful deeds ever since Baron Munchausen, the dean of the profession, raised it to an art. Nations have been saved off-hand in grocery stores, and bygone wars have been made ten times more horrible by the deeds of gallant braggers who have thoughtfully preserved themselves in time of strife behind a gum tree in order to annihilate the foe later on in a more healthy atmosphere.

The bragger is a happy man because he can always find someone to believe him. He lives in an atmosphere of glory and admiration, and as he supplies most of it himself, he never runs short. We need never worry about trying to praise a bragger, because whatever we say is a pale nothing to what he thinks.

Braggers make themselves very useful to quiet, busy men by talking instead of competing with them, and if they can be trained to go away from an office whenever a heavy paper weight is thrown at them, they need never be a nuisance, provided you see them first.

## TAFT DENIES STORY OF TETANUS SERUM

EXONERATES AUSTRIAN CONSUL OF CHARGES WHISPERED AGAINST HIM.

New Haven, Conn., Nov. 20.—Wm. H. Taft, chairman of the Central committee of the American Red Cross, makes public a statement in connection with recently published reports concerning the shipment of anti-tetanus serum to Austria. Mr. Taft points out that the reports have intimated that the Austrian consulate in New York plotted to obtain possession of the cases of serum, which had been prepared by the New York City Board of Health. In justice to the Austrian consul general, Mr. Taft, on behalf of the Red Cross, denies the intimation of the published reports, and he makes known the facts in detail as follows:

"The American Red Cross had a consignment of 11 boxes of anti-tetanus serum, prepared by the New York City board of health, for the Austrian Red Cross. Eight (8) boxes only were received in time for shipment, the remaining three arriving a day or two late. As there would not be another Austrian shipment for some time, and there were no facilities at the warehouse for keeping this serum cold in warm weather to preserve its efficiency, the Red Cross agent telephoned to the Austrian Consul asking if it could find some means of sending over these additional three boxes. The consulate, through the courtesy of Mrs. Hurd and Mr. Wedl, were able to make arrangements for this shipment. The steamer was to sail on the 1st of June, early in the morning. The 31st of May was a holiday, and our agent requested that these boxes be taken by the consulate on Saturday, as the warehouse would not be open on Sunday and Monday and there would be no time Tuesday morning, June 1st, to get the boxes from Brooklyn to Hoboken. It was, therefore, in compliance with the request of the agent of the Red Cross that the consulate sent for the boxes on Saturday, holding them until early Tuesday, when they were sent to the steamer."

## FIVE MILLIONS IN MINISTERS' PENSION

FUNDS FOR CARE OF METHODIST PREACHERS ARE VERY LARGE.

(Associated Press)

Chicago, Nov. 20.—More than \$5,000,000 is already in the treasuries of the Methodist Episcopal conferences and of the board of conference claimants, as an endowment fund to pension preachers," said Dr. J. B. Hingeley, secretary, today.

He says: "It is difficult to state in millions of dollars the exact situation regarding the 1915 campaign for ten million dollars, because the movement is in a condition of flux, and the movement is changing every day."

"The amount needed by way of permanent investments to make stable the claims of retired preachers is \$15,000,000. Of this amount \$5,000,000 is already in the treasuries of the conferences and of the board of conference claimants, beside subscriptions as yet unpaid, leaving \$10,000,000 as a conservative statement of the campaign in its present phrase."

"Hence in the general literature of the campaign, it is spoken of today as the \$10,000,000 campaign—to secure money enough to pay each retired minister half the average salary in the conference of which he is a member."

## DEMENTTOWN DOINGS WINTER IN TRENCHES NOT SO DISAGREEABLE

ARMIES IN FRANCE WILL BE MUCH BETTER PREPARED THIS YEAR.

Bologne, France.—Correspondence of Associated Press.—Signs are plentiful that winter is close upon the troops in the north of France. The nights are already cold, far too cold for comfort, and the characteristic winter night mist from the marshes is in the air. The trees are not yet bare but the leaves that remain have turned to a sere yellow, while the roads are covered with fallen leaves which the soldiers heap into piles for a fragrant warming fire.

It is evident that there is to be another winter campaign; robbed, however, of much of the horror of last year's ordeal in boggy trenches and along impassable roads. In northern France, at least, winter will find the rival armies well prepared to receive it. The wet mud, the ice-cold water, knee deep in communication trenches, the ooze and discomfort of dugouts, will be the exception rather than the rule this year. The shelters, even in the advance trenches, will generally be fairly livable, thanks to the plentiful use of concrete and tar, and the skillful employment of drainage.

Moreover, the armies will be properly clad and fed. The British soldiers will again don their sheepskins, supplemented by ample supplies of warm caps, socks and heavy boots of rather better type than last year.

Many trenches now have brick floors and practically all are drained and protected against landslides by timbers.

The great problem of the winter will be the billeting of all the new divisions which have come out since last year. In the villages well behind the firing lines, every outbuilding and old barn has been requisitioned, repaired, cleaned and made into shelter against wind and cold. But nearer the firing line most of the buildings have been shashed into ruins and though they were usable for housing purposes during the summer, they are plainly impossible after mid-November. The problem is being dealt with to some extent by the building of portable houses and huts, but the armies grow too fast for the carpenters.

The work of the aeroplane observer gets more difficult as winter comes on. The fogs of the late autumn cling to the ground in little patches well into the day, while the evening mists make observation difficult soon after mid-afternoon.

## UNCLE SAM HELPING ILLINOIS ARTILLERY

FEDERAL GOVERNMENT BUYING HORSES FOR NATIONAL GUARDSMEN.

### STATE CAVALRY RANKS HIGH

(Associated Press)

Springfield, Nov. 20.—Sixty artillery horses are being selected by the federal government to equip partially the six field batteries of the Illinois National Guard. Adjutant General Frank S. Dickson has just learned that his requisition for ten horses for each of the batteries had been allowed. The government will provide forage for the horses and pay the necessary attendants, leaving the state to pay for only the stabling.

Thirty-two trained horses are needed for a battery, but with ten trained horses, army officers believe drill will be greatly simplified for the hired animals soon can be taught to follow the trained ones.

The war department program calls for one complete army division to be made up jointly by Illinois and Indiana. Illinois' quota lacks only one ambulance company, one engineer company and a few additions to the signal outfit. The sixth battery necessary was mustered in recently at Urbana, while the war department plans only called for six regiments. The First Cavalry, I. N. G., is said to be one of the finest outside the regular army. A movement is on foot to provide horses for all the troops of the First Cavalry instead of hiring lively stable animals.

Assistant Secretary of War Breckinridge told the recent gathering of National Guard leaders at San Francisco that the new government plan provided that each state would receive from the government for its national guard organization an amount similar to that appropriated by the legislature. This would mean a big increase for Illinois, which received \$100,000 from the government the last time as compared with an appropriation of \$387,000 made by the state.

## CHAPMAN'S TEAM IS TIE WITH RAYMOND

Y. M. C. A. BOWLING TOURNA-ME-T ASSUMES INTEREST-ING ASPECT.

Chapman's team in the Y. bowling league by winning the contest from Rogers' team Friday night tied with Raymond's men on the number of games won so far and when these two teams meet next Friday evening there will no doubt be "some game." Rogers' men made a good start Friday night and had a walk-away in the first game but they fell by the wayside in the following two games and missed several good opportunities to make full frames. On Monday evening a scheduled contest will be played between the Reid and Poole teams.

### TO REBUILD PLANT

Contractor M. D. Smith has been awarded the contract to rebuild the Dixon Distilled Water Ice Co. plant on River street which was wrecked by an explosion last Saturday morning.

## DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get cleaner and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washings the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphate hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

#### Plans Social Hour

Rev. F. D. Stone, formerly of this city, is initiating a novel plan in his church in Elgin, that of a social hour for the young people after the evening service. The following is the plan outlined:

Elgin, Ill., Nov. 17—Rev. Fred D. Stone, the pastor of the First M. E. church is the first to introduce a young people's social hour following the regular church service on Sunday evenings. The new idea will be tried out beginning November 21 when Rev. Stone will begin his first of a series of four Sunday evening addresses.

"The young people ought to have a place to meet. Sunday evening has always seemed to me to be the logical time for young people to meet each other. After church a social hour in the church parlors seem to me to be a fitting finish of a day of good."

"As I have become an Elginite only recently I am not exactly familiar with the popular evenings for young people to meet each other," but he added with a smile, "I always found Sunday night to be a favorite."

The plan of the social hour will be to have a different Sunday class every evening take charge of the social hour. The four addresses will be given November 21, 28, and December 5 and 12.

A very successful box social, in spite of the inclement weather, which may have kept a number from going, was held last evening at the Wild Cat school house. The children gave a program very entertaining, and from the twenty-five boxes sold, the sum of \$25 was netted. The box made by the teacher, Miss Elizabeth Kennedy, was the cause of a great deal of rivalry in the bidding, and was finally sold for \$3.50, the highest price for a box. George Fruin was the auctioneer. Among those present were: Miss Lillian Volcott of Amboy, teacher of the Kingdom school; Mrs. George Fruin, Mr. and Mrs. Nelson, Miss Lizzie McCoy, Mr. and Mrs. Manahan and Miss Mary Manahan, Miss Millerr, Miss Stauffer, Mrs. Sinclair, and Mrs. Kennedy of Dixon, and Mr. Sandmire of the Kingdom.

A wedding breakfast was served at the home of the bride's father shortly after the ceremony to members of the two families. Lavender chrysanthemums were used in the decorations.

#### SAVED FROM THE ANCONA.

DR. CECILE L. GRELL.

Dr. Cecile L. Grell of the Ancona survivors, was returning to New York from special hospital work, to which she was called at Bari, Italy, by the Russian Red Cross. She sailed from America last August on the Adriatic.

"I would not go there merely to bind up wounds," she said. "There is too much misery here at home that needs an abundant supply of working physicians. I am going for the organization part of the work."

At ten, Dr. Grell was a cash girl in a store at Grand and Allen streets, New York City. She married at 16, and after having three children found herself called upon to support them. She said once that it took 14 years to save the \$2,500 with which, after reaching the age of thirty, she went through medical school. She later went to Italy and was attached to the Children's hospital in Florence and the Marine hospital in Naples.

## MUNDAY GUILTY SAYS GRUNDY COUNTY JURY

Continued from Page 13

The promotion of the International Trust and Savings bank is alleged to provide a further instance of reckless financiering. He is charged further with having looted the Rosenill Cemetery Co.

Munday's rise in the business world was remarkable. In ten years he won a large fortune and interest in eleven banks and a dozen business concerns. He was born and reared in Litchfield, Ill., his father being a justice of the peace.

The banker's first work was as a messenger for a telegraph company, then an operator. He became interested in the grain market and began buying grain in a small way. In 1890 Munday left the telegraph service and entered the firm of D. O. Settlement & Co., an elevator concern. Munday later came into control of the business.

In 1902 he entered the banking business by organizing the Litchfield Bank & Trust Co., and later a chain of banks.

Munday first met Lorimer in 1907. When the latter was elected Senator, Munday, who was a democrat, was active in his interest.

In 1909 Munday, with Lorimer and a number of the latter's friends organized the LaSalle Street National bank, which later became the LaSalle Street Trust and Savings bank.

### WALT WHITMAN'S HOME FOR SALE.

Ardent admirers of the author of "Leaves of Grass," and of "O Captain, My Captain," will be given an opportunity to demonstrate the depth of their admiration by competing at auction for the ownership of the boyhood home of Walt Whitman at Huntington, Long Island. There is no danger of the romantic and weather-stained homestead passing into the hands of unappreciative vandals, for the owner has set a minimum price of \$5,000, which is much above the practical value of the small, uncomfortable, inaccessible cottage in none too good a state of repair, alienated as it is from the broad farm and woodland acres of which it was the central point when the dreamy boy Walt roamed the forests and fished in the streams of the ancestral acres. A bare 75x100 feet of land goes with the house, and six years ago the highest bid that could be obtained for it was \$1,600, which is a more beggarly price for the birthplace and boyhood home of a celebrated poet, complete, with guaranteed fireplace, than it is even for a summer residence on the north side of Long Island, just far enough from New York City not to be remote.—Rochester Post-Express.

### PENTECOST AND ARMAGEDDON.

Mr. Bryan, reproving the president sharply for quoting bible authority in support of military preparedness, says, "What the world needs today is a Pentecost, not an Armageddon."

True enough, but what the world is having today is an Armageddon, not a Pentecost. The difference between Mr. Bryan and Mr. Wilson is that Mr. Bryan wants the United States to equip itself for the Pentecost that we all wish the world was having, while Mr. Wilson wants the United States to equip itself so that it will not go to destruction in the Armageddon that the world actually is having.

The Christian festival of the Pentecost is one of thanksgiving for the descent of the Holy Spirit on the disciples. If what is going on in Europe today is a sign that righteousness is about to descend upon the nations, most of us have not hitherto recognized the omen.—Charleston News and Courier.

### "PEART GOOD CIDER."

They will tell you, up New England way, that whenever you drink it, you must stop after the first long luscious draught and say, "Z peart good cider fer this time of year." It is neither a formula nor a convention, because the heart is in it. It is a sacrament.

Because, whether you take the concoction which is now a brew of one day after the apples have been pressed and the spice been prepared, or you wait until the roaring nights of winter and sip it, with cheese on the side in the shape of a pumpkin head, it is, unquestionably, peart good cider for that or any time of the year. Cider is always made from the apples of Eden—not those from the tree of Good and Evil, but those from the tree of Wisdom.—Philadelphia Evening Ledger.

### TIME TO MAKE OUR HAY.

While we continue supplying other countries with things to support life and things to destroy it, we should, while laying up treasures on earth, be laying by a portion of results of our activities in production of weapons and munitions against the day of our need for defense. While making hay in the days of sunshine let us look out for possible storms ahead. We may need a million men on our coast lines some of these days, and, if so, they will surely need weapons and munitions. Also there must be ample provisions of shells and torpedoes for our ships of war.

### HAS IDEAS OF HIS OWN.

Dr. Haiselden, the Chicago physician who refused to perform an operation on a defective child in order to save its life because the child would never be normal, has some very decided opinions outside his profession also. He is a bachelor and has adopted two daughters.

"Instead of specializing in Airedales, pugs and poodles, childless women should adopt children," said Dr. Haiselden.

"I have seen the pitiful end of institutions for children and they can't be gathered together and do well. Children need individual attention in small groups. I came to this conclusion long ago."

### A SEARCHER FOR THE SKIES.

While great guns are being made to do great damage on earth great telescopes, to wrest the secrets of the stars, are likewise being made in our country. In Pittsburgh there is now, nearing completion, the largest reflecting mirror ever made. It weighs two and one-quarter tons, its diameter is six feet and its "focal length" is thirty feet. When the telescope of which the mirror is a most important part is completed, it will be set up in British Columbia, on Saanich Hill—and once it gets there it will probably be a fixture, for its whole weight will be some 260 tons. The mirror will be pretty fairly accurate. It is being worked on now, the work being the correcting of possible error of one-two hundred and fifty thousandth of an inch of a parabolic curve.

### TREES AS LANDING SPOTS.

Every time a joy-rider lands on a tree top presses upon autoists the need of supplementing good roads with trees judiciously planted. No measure of safety for present and future use should be overlooked as we speed along.

They are talking about sending a peace committee to Europe and among those mentioned as members of the committee is Theodore Roosevelt. They must expect that peace committee to settle the war by brute force.

## FEEDING SOFT CORN

By W. H. PEW,  
Professor of Animal Husbandry, Iowa State College.

Many letters are being received by the department asking for information concerning the feeding of soft corn so generally found this year.

Some fields of corn in many counties of the state were no further along than the milk stage when the heavy frosts came. The ears, in such fields, are of small account. In this case the feeding value is scarcely more than is found in the stalk. In other fields the corn was just beginning to dent when the heavy frosts came. Such corn will be chaffy and probably will contain at this season 30 to 50 per cent moisture. There is no doubt a great variation in the condition of the corn from one county to another.

The farmers who have utilized a large portion of the corn crop by filling the silo are fortunate this year. If the corn has been shocked the silo can be refilled later in the winter. It is now a question of utilizing the corn crop and in most cases utilizing it as early as possible.

During the past few weeks miscellaneous articles have been sent out thru the newspapers to the effect that live stock cannot be fattened on the unmarketable corn. These seem to be somewhat in error. Some data is given below which will be of assistance.

At this experiment station in 1902, when the corn crop was similar to that of this year, cattle weighing nearly 1,150 pounds were purchased and divided into two lots; one to be fed soft corn on pasture from Oct. 13 to Nov. 17; soft corn and hay from Nov. 17 to Jan. 12, and soft corn, gluten feed and hay from Jan. 12 to Apr. 13. The other lot to be fed the same with the exception that the corn was to be mature corn of the second year before.

In this case the soft corn contained 35 per cent moisture at the beginning and 16 per cent moisture at the conclusion of the test. This test indicated:

1. That the dry matter in soft corn containing 35 per cent moisture at the beginning of the test was fully equal in feeding value to the dry matter in mature corn when used for fattening cattle.

2. That cattle fed on this corn made nearly as heavy gains and finished equally as well as those fed on mature corn.

3. That soft corn purchased at 30 cents per bushel produced gains on cattle 3.93 cents per pound cheaper than mature corn purchased at 50 cents per bushel.

The amount of moisture depends chiefly on the maturity of the corn when struck by the frost. The softness of the corn will determine the class of cattle to which it ought to be fed.

If the corn is mature, as is the condition in some sections, cattle can be fed and finished as usual. If the corn was frosted when beginning to dent heavy cattle can be fed out and finished as indicated above, in the spring. If the corn was not dented at the time that frost came, light cattle can be fed on it and carried through the winter and they can be finished next year on pasture.

If the corn becomes frozen during the winter, as undoubtedly will be the case on many farms, it can be run through a cutter and fed out to good advantage. The earlier it can be fed the better. In order to get the most feed value the corn ought to be cut and shocked in small shocks.

If finishing the cattle the corn ought to be supplemented with some concentrated feed, as cottonseed meal or cottonseed meal and suitable molasses feed. Probably the amount of supplement can be somewhat reduced from the usual amount suggested.

It will require more pounds of corn to feed the cattle on soft corn than where it is matured. It will no doubt pay to feed them three times per day.

Hogs can be turned in the corn and let hog it down. Tankage or meat meal and oats ought to be supplied where they could have free access to it. Some questions have arisen concerning the cholera situation when hogs are permitted to eat immature corn. If they have been successfully vaccinated there is no more danger of loss from cholera than where they are permitted to eat mature corn.

Portland Oregonian: The ideal is not always desirable when it is un-mixed with the practical. Like ground so rich that the plantages all to wonderful foliage and little or none to fruit or bulb, is the man today who converts his talents too much in one direction. Portland Oregonian: It is commonly conceded that the short story is more popular in the United States than anywhere else in the world. It forms the main contents of pretty nearly all our magazines and many of them print nothing else. A few magazines of superior quality depend upon more solid attraction, but they are not very widely read, except by the more intellectual classes. People who read for entertainment drop their magazines when they have gone through the short stories.

## LAY CORNER STONE FOR MCKINLEY BUILDING

(Continued from Page 1)

The day's program began with a parade in which state troops, veteran organizations, Masons and other organizations in which Mr. McKinley was interested, took part. Camps of Spanish War Veterans and posts of the Grand Army of the Republic from Cleveland, Alliance, Canton and Akron, O., and Pittsburgh, Sharon and New Castle, Pa., were in the line of marchers. Half a dozen bands made music for the parade.

After the Masonic part of the program a tablet was affixed to the stone, bearing this inscription:

"ERECTED 1915

"To Perpetuate the Name and Achievements of William McKinley, Twenty-fifth President of the United States of America.

"Born January 29, 1843.

"Died September 14, 1901."

The building, when complete will be a two story structure of severe colonial design, flanked by one story wings of almost equal length with the main structure. The main portion is to be supported by six Ionic columns and the facade of each wing will carry as many similar supports in sectional form. The cornice will be plain, and rectangular door and windows will emphasize the straight lines of the design.

The funeral services for Mrs. Jas. W. Rice, which were held at the home this afternoon, were in thorough harmony with the departed woman's life, for, in the privacy of her family circle, where she found her greatest happiness, the last sad rites were performed. The funeral was private as a tribute to the mother's great love for her home and children. Many beautiful floral tokens attested the high regard in which Mrs. Rice was held by her friends and the eulogy pronounced by Rev. C. H. Day was a true appreciation of her worth. The remains were laid to rest in Oakwood cemetery.

## Hudson Maxim Draws Picture Of Invasion Of This Country

(Associated Press)

Kansas City, Mo., Nov. 19.—Hudson Maxim, inventor of many implements of war, addressing the Kansas City commercial club at annual dinner here tonight, asserted that the only way America could be saved from war would be to have a big navy and powerful enough to stand successfully against any other navy in the world and "an army big enough to save the country from the horrors of defeat and humiliation, even should our navy be destroyed."

"Our little, poorly equipped army would not be able to offer resistance enough to make a ripple in the line of the enemy's advance," Mr. Maxim said. "Our army would make just about one good day's killing."

"Suppose the enemy should land at Boston or New York or any of the ports between. Nothing under heaven we could do would prevent the invaders from capturing the entire country between the Alleghenies and the sea within two weeks," Mr. Maxim's suppositional invasion was by first class European power at the conclusion of the present conflict.

"Any one of the great warring nations, if victorious," he said, "would have available several million war-tired veterans for a trial at arms with us, and should that foreign nation be either England or Germany, it would have a navy far superior to our own, and consequently could not be opposed by our navy. Hence that nation would be able to land upon our shores legions of trained fighters, equipped with all the paraphernalia of war as fast as they could be brought overseas."

A quarter of a million men, Mr. Maxim said, could be landed within a month and reinforcements of that number brought over every thirty days thereafter, if needed. After they had captured that area, the inventor continued, for America "there would

be but one way out."

"We would have to ransom ourselves with gold and the enemy would throw his sword into the scales as did Brennus to make good weight. Our captors would take possession of our homes and our women, for to every household would be detailed a certain number of officers or privates, to be fed and entertained. You would no longer be master of your own household, but the officers in charge would be masters of ceremonies. \*\*\*

"While all the other nations of the world are armed to the teeth, and are still arming and fighting for the mastery of the world, it is the extreme of imbecility for us not to arm also. We are forced to decide whether we will kill our enemies in self-defense or allow our enemies to kill us."

"If this country should be invaded and we should send our young men to the front without adequate preparation, it would be merely to sacrifice them in a shambles of slaughter. We do not want to do this thing. It is your duty—it is the duty of all of us—to use our brains, our mouths, our pens and our money to the full to defeat the propaganda of pernicious pacifism."

"We are the richest country in the world and we can very well afford national insurance, and we must insure in time of peace. \*\*\* Look at England, France, Russia. Think of the vast burden the tax payers of these countries will have to bear in future, and how much greater that burden will be than it would have been had those countries been as well prepared as was Germany. \*\*\*

"The chief lesson of the present war is that we should prepare against war. From every sense of obligation; from every sense of economics; from every sense of duty and religion, we should get ready—and lose no time about it."

and Harry, a farmer, both of Imperial, Nebraska.

His wife preceded him in death 22 years ago.

Although he had been in failing health for the past five years, Mr. Newman's condition became serious only last February. He suffered intensely for the last six months, but he was a patient sufferer until the end, when he slipped quietly away from this life.

Beside his children he leaves four brothers and one sister: Mrs. Mary Broeffle of Galt, Iowa; Erastus of Amboy; Daniel of Shaw Station; Sidney of Sugar Grove, and Albert of St. Louis, also five grandchildren.

The funeral services were held in the Congregational church at Lee Center Nov. 17, 1915. The Rev. Henry Heisey officiated and interment was made in the Woodside cemetery at Lee Center.

Several days ago the Amboy boys were over here and defeated the local lads in a one-sided game by something like 20 to 5 but with the experience gained in this game our boys were able to turn the tables on their adversaries Tuesday evening on their court at Amboy by the score of 20 to 16. They say it was a great game and we believe every word of it for a game of basketball that ends with only four points difference in the score is a close game. We have only one regret to express and that is for not being able to witness the game. Good work, boys. Continue.

W. A. Weber and Lewis Bradshaw of Compton were here Wednesday on business.

Kyle Miller and Fred Creig of Shaws were in town on business Wednesday.

The stockholders of the West Brooklyn Farmers Elevator Company held a meeting in the opera house on Saturday evening and transacted business concerning the corporation for the coming year. They have another 15% earnings to divide among the stockholders again this year—and now every original investor will have his money back again for in the eight years of the company's existence they have paid 100% in dividends to the stockholders besides investing about 20% in improving the elevator building and erecting cribs. The concern has prospered from the beginning and must be numbered among our leading business industries. The ticket to be voted at the annual election to be held next month was nominated and it is as follows: Henry F. Gehant, president; Directors: J. W. Thier, Laurent Gehant, George Schnuckel, John Erbes, John Fastig, John Halbmaier and David Burkardt. These are the same officials who have held these offices during the eight years of the company's career and the stockholders seemed very willing to permit them to continue.

## WHITLOCK, COMING HOME FOR REST, EXPECTS TO RETURN TO BELGIUM.

BRAND WHITLOCK

Brand Whitlock, American minister to Belgium, who sailed for New York on the Holland-America steamer Ryndam said his trip to America had no political purpose whatever. His sole object was to give him a short rest and an opportunity to get back his health, which had been undermined by fifteen months of interrupted work at high pressure. The minister looks like a man completely fagged out from nervous strain, but he said he confidently expected to be back at his post at Brussels soon after the new year. He has already arranged for his return passage on the steamer Rotterdam, sailing from New York on Dec. 23.]

## SO EASY THEY COME AGAIN

Robbing This Postoffice Like Getting Money from Home.

Duquoin, Ill., Nov. 20.—The post office at Buckner, fifteen miles east of Duquoin, was robbed at an early hour in the morning, and it is reported here the burglars succeeded in getting away with a quantity of stamps and money amounting to about \$600.

The Buckner office has been robbed several times before and because of the lack of protection the building in which it is located offers little resistance to robbers. The men who did the job there are probably members of the same gang which has been operating in Southern Illinois for months. The Duquoin office was robbed of \$1,000 last April.

Now It Is Clothing for Them.

East Moline, Ill., Nov. 20.—An effort will be made by the East Moline board of education to supply children of poor parents with sufficient and suitable clothing for winter, so that they will not be compelled neglect their studies because of lack of raiment.

## MASTER IN CHANCERY SALE.

Public notice is hereby given that, under and by virtue of a decree of the Circuit Court in and for the County of Lee and State of Illinois, made and entered on the 2nd day of October, A. Ayres is complainant and Josie Van Arman and others are defendants: Foreclosure No. 3293, I, the undersigned Master in Chancery of said Court, will, on Thursday, the 2nd day of December, A. D. 1915, at the hour of 9 o'clock in the forenoon, at the North door of the Court House in the City of Dixon, Lee County, Illinois, sell at public vendue to the highest and best bidder for cash in hand the following described premises, to-wit:

Part of subdivision Lot No. Five (5) of the Southwest fractional quarter (South of Rock River), of Section No. Thirty-three (33) in Township No. Twenty-two (22) North, of Range No. Nine (9) East of the 4th P. M. lying West of River View Addition to the City of Dixon, and East of that part of said Lot conveyed to C. H. Fargo & Co., it being a tract or lot of land 189 1/2 feet in width East and West and extending North and South from Second Street in said City to Rock River, situated in the County of Lee and State of Illinois; said land may be further described as follows: Being part of Lot Five (5) of the subdivision of Lot One (1) of the Southwest Quarter (South of Rock River) of Section Thirty-three (33) in Township Twenty-two (22), North of Range Nine (9), East of the 4th P. M., according to the Plat thereof recorded in Book "A" of Miscellaneous Records, page 166, in the Recorder's office of said Lee County, said part of said Lot Five (5) being all that part thereof lying west of and adjoining River View Addition to the City of Dixon, (189 1/2 feet in width at right angles and East of a part of said Lot formerly conveyed to Chas. H. Fargo & Co.) and extending from East Second Street to Rock River; said part of said Lot Five (5) conveyed by said Mortgage, lying South of East River Street, being designated as Lot One (1) on Plat No. 4, Neighbour's Series, recorded in said Recorder's Plat Book "C" on page 35, in said Recorder's office;

Or so much thereof as may be sufficient to realize the amount found by said decree to be due complainant, principal, interest, costs of suit and expenses of sale and which may be sold separately without material injury to the parties interested.

Dated at Dixon, Illinois, this 6th day of November, A. D. 1915. MARK C. KELLER, Master in Chancery. J. W. WATTS, Solicitor for Complainant. 6 13 20

Best Minnesota Bargain. About 625 acres of the best land in this state as smooth as a floor and cut on the north by good river (full of fish), and cut on the south by big ditch, just completed, and this ditch is about eight feet deep and shows the best of good yellow clay clear to the bottom. The top soil is the best black sandy loam to be found in Minnesota. The water is pure, and never falling well on the place, which is occupied by tenant. This farm is as smooth as the best of the Red River Valley it should not be confused with same, as this is near the highest point of land in the state.

There is fair house and also other buildings with some fenced in pasture and also some field in crop, and all the land desired for crop can be broken with tractor and as this is new land one crop of flax will pay for it at the bargain price of \$25 per acre.

Five thousand dollars cash will handle the deal and it is near direct line to Duluth, which is the best market in the Northwest.

Wadsworth Co., Langdon, North Dakota, and 525-7 Temple Court, Minneapolis, Minn. 262tf

## HEARD IN DIXON

HOW BAD BACKS HAVE BEEN MADE STRONG—KIDNEY PILLS CORRECTED.

All over Dixon you hear it. Doan's Kidney Pills are keeping up the good work. Dixon people are telling about it—telling of bad backs made sound again. You can believe the testimony of your own townspeople. They tell it for the benefit of you who are suffering. If your back aches, if you feel lame, sore and miserable, if the kidneys act too frequently, or the passages are painful, scanty or off color, use Doan's Kidney Pills, the remedy that has helped so many of your friends and neighbors. Follow this Dixon citizen's advice and give Doan's a chance to do the same for you.

Mrs. M. Y. Cox, 614 Van Buren avenue, Dixon, says: "I had a dull heavy ache in the small of my back and it was painful for me to straighten up again. I also had headaches and frequent dizzy spells. I used only one box of Doan's Kidney Pills and they removed the trouble."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Cox had. Foster-Millburn Co., Props., Buffalo, N. Y.
